

10) If I Had a Theory

To the tune of *If I Had a Hammer*
by Lee Hays & Pete Seeger

If I had a theory
I'd test it in the morning
I'd test it in the evening
All over this lab
I'd test out danger
I'd test out a warning
I'd test out love between
My brothers and my sisters
All over this lab

If I had some data
I'd plot it in the morning
I'd plot it in the evening
All over this lab
I'd plot out danger
I'd plot out a warning
I'd plot out love between
My brothers and my sisters
All over this lab

If I had funding
I'd publish in the morning
I'd publish in the evening
All over this lab
I'd publish danger
I'd publish a warning
I'd publish love between
My brothers and my sisters
All over this lab

Well, I've got a theory
And I've got data
And I've got the funds to test
It all in this lab!
It's the theory of knowledge
It's the light of reason
It's a song about truth for all
My brothers and my sisters
All over this land
It's the theory of knowledge
It's the light of reason
It's a song about truth for all my
brothers and my sisters
All over this land

Lyrics: Elizabeth Weinbloom, Claire Paulson, Andrew Ross and Jeremy Simon, on behalf of *Vocal Opposition*.

11) Stand Up for Science

To the tune of *This Land is Your Land*
by Woodie Guthrie

Stand up for science
No time for silence!
The cure for cancer-
We need an answer.
Hear our entreaties,
Cure diabetes.
Science is good for you and me!

For global warming,
The facts come swarming.
Climate denial-
It's suicidal!
You might deny it-
We just don't buy it.
Science is good for you and me.

Don't de-fund science-
Join our alliance!
New forms of energy-
It's time for synergy.
To protect our planet,
Science- don't ban it!!!
Science is good for you and me!

You huddled masses-
Come take our classes.
If you are yearning-
Come here for learning.
And after college-
Please share your knowledge.
Science is good for you and me!

Our Muslim brothers,
Sisters and others:
We stand beside you
And won't deride you
Banned immigration-
Bad for our nation
Science is good for you and me!

Healthcare is our right,
For which we must fight.
Our vision's global
Our cause is noble.
It's our insistence-
Join the resistance!
Science is good for you and me.

Lyrics: Thomas Michel

5) Revolution in You

Adapted from SGI-USA Student Division

Close your eyes
And imagine your home.
Walls and pictures
Of people you know.
Well the world is my home,
So your house is mine too.
And if you look to the heart,
These words will ring true.

Chorus A:

Time to say goodbye
to the fear within you
It's what you do, a Revolution
in you!
Aim to change yourself,
And trust that I will, too!
It's what we have to do

If you only believe
In the things that we don't share,
Then you'll only see
A people without care!
If you only believe
In the things we don't share,
Then the future will be
A world without us there.

Chorus B

Take my hand; put down your arms
You can change the world
No matter who you are.
Determination
Takes hold of resignation!
Come and join us
In a global transformation!

Cause if you really believe
That the world is ours to share.
And you really respect
The hearts of everyone there.
Cause if you really believe
That the world is ours to share.
Then believe me you'll see
A world with less despair!

Chorus B

Chorus A

6) The Same Thing

Rachel Schragis

Oo wah oo, wa oo, wa oo (2X)

There are some places I've been
That you have not been to
There are some places I've been
That you have been to too
There are some places you've been
That I have not been to
There are some places that we
Have not been to yet.

Chorus

There is one question
With a thousand answers
Or perhaps only one answer
To a thousand things to ask
But hey, don't you know,
There's no need to feel dejected
All of our grievances
Are connected
Oo wah oo, wa oo, wa oo (2X)

Everywhere I go
I see a different situation,
But everywhere I go
I see the same thing.
Everywhere we are
We see a different situation,
But everywhere we are
We know the same thing.

Chorus

7) People Gonna Rise

9) When I'm Gone *Phil Ochs*

There's no place in this world where I'll belong
when I'm gone
And I won't know the right from the wrong
when I'm gone
And you won't find me singin' on this song
when I'm gone
So I guess I'll have to do it while I'm here

And I won't feel the flowing of the time when
I'm gone
All the pleasures of love will not be mine when
I'm gone
My pen won't pour out a lyric line when I'm
gone
So I guess I'll have to do it while I'm here

And I won't breathe the bracing air when I'm
gone
And I can't even worry 'bout my cares when
I'm gone
Won't be asked to do my share when I'm gone
So I guess I'll have to do it while I'm here

And I won't be running from the rain when I'm
gone
And I can't even suffer from the pain when I'm
gone
Can't say who's to praise and who's to blame
when I'm gone
So I guess I'll have to do it while I'm here

Won't see the golden of the sun when I'm gone
And the evenings and the mornings will be one
when I'm gone
Can't be singing louder than the guns when I'm
gone
So I guess I'll have to do it while I'm here

All my days won't be dances of delight
when I'm gone
And the sands will be shifting from my
sight when I'm gone
Can't add my name into the fight while
I'm gone
So I guess I'll have to do it while I'm here

And I won't be laughing at the lies when I'm
gone
And I can't question how or why when I'm
gone
Can't live proud enough to die when I'm gone
So I guess I'll have to do it while I'm here.
